The past one hundred years have created a world of synthetic antibiotics: antibiotics that doctors constantly turn to in order to assist in eliminating common colds, flu and other serious illness. And this constant turn toward synthetic antibiotics has actually produced super strains of bacteria that beat back against average antibiotics. Soon, the world will find no synthetic antibiotics to match the unique, evolutionary strains of bacteria, and the medically-crazed world must seek solace in a different sort of society. It s time to take charge of your life once more with a look toward the natural world. The environment, the earth, and the historical understanding of the past utilization of herbal antibiotics alert you to the proper ways in which to heal yourself. Herbal Antibiotics provides unique recipes for ointments, medicinal-pulsing foods and specific antibiotics and antivirals. Build your immune system and fight back against viruses and bacterium! You don t need to put any more chemicals into your system, treat your body naturally and with care.
