Language: English Brand New Book ***** Print on Demand *****.Excerpt from Tables and Formulae Useful in Surveying, Geodesy, and Practical Astronomy, Including Elements for the Projection of Maps: Instructions for Field Magnetic Observations General: In preparing this third edition of a volume compiled in 1849 for the use of the Corps of Topographical Engineers, when an officer in that corps, I have made such additions and corrections as experience has suggested and the requirements of the service seemed to demand. Intended more especially for field-use by officers engaged in surveys or explorations, and aspiring to no further merit than that of accuracy, utility, and convenience, it is submitted with the hope that it may continue to be favorably received by those who may have occasion to refer to it. The revision was undertaken at the suggestion of others, and not without reluctance. I beg indulgence for its defects.
