Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 Excerpt: there is a deficit of \$9,853.41 instead of a profit of \$113,162.20. Every dollar that has been put into this plant in the eleven years since its inception is still counted as an active asset with the exception of \$97,059.24 charged off as Depreciation as follows: 1914 \$24,115.35 1916 \$29,658.99 1915 13,284.90 1917 30,000.00 There seems to have been a lack of systematic bookkeeping, thereby leaving an opening for a mistaken idea as to the real results obtained in the operation of the plant. In fact, the report states that no hooks were kept prior to 1914. TOPSY-TURVYDOM IN ONTARIO By Glenn Marston For years Sir Adam Beck, as head of the Hydro-Electric Power Commission of the Province of Ontario, has been bending every effort toward putting the privately-owned electric light and power companies in that part of Canada out of business. And yet, on the first occasion when unusual conditions confront the power industry, the publicly-owned hydro-electric system has failed signally to render adequate public service; has arbitrarily restricted the power consumption of the municipal plants using hydro-electric power, and tried in every manner to compel private companies to help out the shortage on the publiclyowned system; and has even gone so far as to demand that private companies operate their steam plants for the benefit of the Hydro, as the provincially owned and operated system is locally called. Meanwhile the private power companies have been supplying all their customers with all the power demanded....
