Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1919 Excerpt: .increased death rate for these ages, knowing their greater capacity for contributions, they have profited thereby in a greater influx of young members-their sons and daughters-whose death rates and resulting assessment rates appear to be appreciably lower than those of New England throughout the range of life from 18 to 44, notwithstanding our curtailed age limit, which has signally failed to produce a lower death rate for New England societies, except in those ages we taboo (45 to 54) while increasing our average age 2.78 years over that of the National societies, and reducing our duration of membership to 10.73 years while the 27 societies enjoy 11.25 years of contributive life. All the important points in this comparison are against New England as a field of operations under our system of management. We who are yet living, are unconsciously prone to imagine that those who have...
