Brand New Book ***** Print on Demand *****.When we think about postmodernism we have to consider its implication in every aspect of society and none would doubt that homosexuality is one of these major implication especially for the contemporary church. The influence of relativism and the paradigm shift in humanity made homosexuality not just acceptable, but in many cases a norm. For a long time the church barricaded herself not only behind her Jewish-Christian worldview and theological values, but also behind the absolutes of science that just has to agree that in the beginning there were only male and female. For long time homosexuality has been viewed as a behavior option, but what about if science has come up with a new discovery so called Gay Gene? That is exactly what we want to discuss in this essay.
